L903, SUMADHURA EDEN
GARDEN, BENGALURU - 560067

SKILLS

- GCP BigQuery
- Data Build Tool(DBT)
- Data Analytics
- GitHub Copilot
- Airflow
- Monte Carlo
- Python
- SQL
- Tableau
- Hadoop
- Hive
- Kibana
- Splunk

LANGUAGES

- English (Fluent)
- Hindi (Fluent)
- Odia (Fluent)
- Marathi (Beginner)

PROFILE

Detail-oriented Senior Data Engineer with expertise in data pipeline development, process optimization, and advanced analytics. Skilled at translating complex business requirements into scalable, actionable solutions. Passionate about leveraging AI and Machine Learning to drive innovation and deliver impactful results. Dedicated, collaborative, and committed to harnessing the power of data and AI to transform business operations and decision-making.

WORK EXPERIENCE

General Mills

2022 - PRESENT

Senior Data Engineer

- Led the design, optimization, and automation of complex data pipelines and reporting solutions, driving AI adoption and cost efficiency using tools like GCP, BigQuery, DBT, and Copilot.
- Fostered cross-functional teamwork through proactive communication, stakeholder engagement, and knowledge sharing, while consistently delivering innovative solutions to complex business challenges.
- Maintained high standards in code quality and documentation, ensured robust and maintainable solutions, and was recognized as a dedicated team contributor supporting the POD's productivity and success.

Accenture

Lead Data Analyst

2017 - 2022

- Led data lake migration from Hive to GCP, developed Azure CI/CD pipelines, AWS Lambda functions, and multiple automation scripts to streamline processes and reduce manual effort.
- Designed and implemented robust ETL/ELT solutions using tools like Kafka, Spark, Talend, and integrated data from diverse sources (databases, flat files, XML) into unified analytical models; created monitoring dashboards and Splunk alerts for critical applications.
- Designed and implemented robust ETL/ELT solutions using tools like Kafka, Spark, Talend, and integrated data from diverse sources (databases, flat files, XML) into unified analytical models; created monitoring dashboards and Splunk alerts for critical applications.

EDUCATION

Bachelor of Technology

2007 - 2011

Electrical Engineering | Biju Pattnaik University of Technology

CGPA: 8.2 / 10.0
